A very special **interactive** event begins on Monday, May 11.

**Live from Ottawa, Canada**, the National Aboriginal Health Organization begins airing an interactive experience looking at Inuit wellness. The series will air on TV in Canada, Greenland and Alaska, and online **throughout the world**.

FWWI ([www.fwwi.org](http://www.fwwi.org)) **was chosen** due to the **incredible accomplishments** in calling out men to be **warriors of safety** and **protectors of family values**. FWWI's own **Max Dolchok**, an outspoken advocate for men's and family healing, will be featured.

A live panel will take **questions by phone and e-mail**.
